

More than Just a Crash Detector
EXO-ULTRA
Header Process Monitor Systems

Know When to Upgrade

Don't wait until your monitor fails and costs you time and money. Upgrade your existing monitor now and enjoy the same quality and reliability of a new monitor for less than the cost of a full replacement!

Contact your OSG representative today for more information.

Why Upgrade Your Monitor?

- Proactively prevent costly downtime due to unexpected and costly monitor failures.
- Improved electronic components provide you with years of dependable operation.
- Compact and works with 1 or 2 sensor systems.
- Replacement electronic components are no longer manufactured for older machines.
- The cost to upgrade is less than you may think!

Features & Benefits

- Compact and Self Contained
- Non-Contact Sensor
- Operates with Single or Double Header Machines
- Time Delay Function
- Detects:
 - Short/Overfeed/Misfeed
 - Broken or Cracked Punches/Dies
 - Broken Transfer Fingers
 - Cracked Inserts
 - Double Heading

Build Your Own Peace of Mind

Upgrading your monitor does not replace everything and may still leave you vulnerable to failures and downtime. OSG allows you to replace as little or as much as you wish. You can also upgrade to a complete new monitor system and be confident you have everything you need to keep rolling.
